

HITESH KUMAR

Education

Mohali, Punjab	Chandigarh University	09/2022 – 07/2026
Major: Bachelor of Engineering in CSE (Artificial Intelligence and Machine Learning) (CGPA: 7.98) Programming Coursework: Algorithms & Data Structures, Operating Systems, Database Management Systems, Networking AIML Coursework: Machine Learning, Deep Learning, Natural Language Processing (NLP), Statistical Analysis, Data Mining, Database Management Systems (SQL, NoSQL), Big Data Analytics, Cloud Computing, Computer Vision, Image Processing, Reinforcement Learning, AI Optimization, Information Retrieval, Time Series Analysis		

Employment ([Portfolio](#))

Gajsphere Pvt. Ltd. – AI/ML Intern

Remote Jun 2025 - Sep 2025 Certificate
- Built and deployed a real estate RAG chatbot using LlamaIndex, LangChain, and vector databases, integrated with Playwright & BeautifulSoup for property data extraction. - Developed a custom API tool for seamless data retrieval and a property price prediction model for investment insights. <i>Skills: WordPress, CMS, Localization, Web Development</i>

African Association of Entrepreneurs — Web Developer

Remote Oct 2024 – Jan 2025 Certificate
- Developed and maintained the French version of the organization’s website, increasing accessibility for 15,000+ French-speaking users. - Translated and localized 50+ blog articles and reports from English to French, improving user engagement by 20%. - Managed content updates and streamlined publishing workflows using WordPress CMS, reducing update time by 30%. <i>Skills: WordPress, CMS, Localization, Web Development</i>

Edunet Foundation (AICTE & SHELL) — AI/ML Intern

Remote Nov 2024 – Dec 2024 Certificate
- Built a waste classification model using CNN and YOLO, achieving 92% accuracy on test data. - Deployed a real-time detection demo with Streamlit; project ranked top 40 out of 5000+ submissions by industry experts. - Enhanced model inference speed by 25%, enabling efficient real-time usage. <i>Skills: Python, CNN, YOLO, Streamlit, Machine Learning</i>

Think Blue Data — AI Research Volunteer

Remote Sep 2024 – Oct 2024 Certificate
- Annotated and curated 10,000+ data samples for urban planning and building topology AI models. - Collaborated with a team to develop AI-driven infrastructure planning solutions, supporting sustainable urban development in Thailand. <i>Skills: Label Studio, Data Annotation, AI, Machine Learning</i>

Software Projects ([Projects Portfolio](#))

Open Source Projects:

Project Admin ([OpenVoiceX](#)) – GirlScript Summer of Code (GSSoC ‘25)

GirlScript Foundation · Remote · Jul 2025 – Present
- Voice Marketing Agent – Built an open-source framework for real-time, low-latency AI phone call automation, achieving sub-2s response latency with full self-hosting. Designed modular microservices with FastAPI, Ollama LLM, Coqui TTS, and Whisper STT, supporting 100% open-source deployment. (Github) - DialogWeaver – Developed a production-ready, self-hostable orchestration platform for voice-first conversational AI. Enabled no-code agent building, multi-tenant API with FastAPI + PostgreSQL, and seamless integration with ASR, LLM, and TTS providers. (Github) - Web-Voice-Marketing-Agent – Created a centralized landing platform for Voice AI projects with Next.js + Tailwind, Docker integration, and Vercel deployment. Delivered responsive UI, clear contributor docs, and smooth onboarding experience. (Github Live Demo) Tech Stack: Python, FastAPI, Docker, PostgreSQL, Redis, React, Next.js, Tailwind, Coqui TTS, Whisper STT, Ollama

Project Maintainer / Mentor – SWOC, DWOC, JWOC

SWOC (Dec 2024 – Mar 2025) DWOC (Jan 2025 – Mar 2025) JWOC (Jan 2025 – Mar 2025) (Swoc Jwoc Dwoc)
<i>Multi-RAG-Agent Tools</i> – Built a multi-agent AI system for summarization, article generation, and data sanitization, improving workflow efficiency by 40% with 95% automation accuracy. (Github Live Demo) <i>LinkedIn Automate Comment</i> – Developed an AI-driven automation system handling 1,000+ posts/day, generating relevant

comments with 90% accuracy, boosting engagement by 50%. ([Github](#) | [Live Demo](#))

- *Guard AI – Remote Proctoring System* – Created an AI-powered exam proctoring tool with facial recognition, gaze tracking, and lip movement detection, onboarding 15–20 users and collaborating with 30–40 contributors. ([Github](#) | [Live Demo](#))

Tech Stack: Python, ML/DL, Flask, Next.js, OpenCV, Selenium, FAISS, Hugging Face, MongoDB

AI-Waifu (Project Ananya – Interactive AI Companion) | ([Github](#) | [Live demo](#))

- Built an interactive, voice-driven AI companion with multi-backend LLMs (Groq, Ollama, OpenAI), dual TTS engines (Coqui XTTS v2 for voice cloning, Kokoro TTS for local inference), and real-time speech interaction through Gradio.
- Implemented long-term memory using ChromaDB vector store, enabling persistent conversations with personalized recall and emotional context.
- Designed a dynamic 3D avatar system with lip-sync and personality customization via YAML configs, enhancing user engagement.

Tech Stack: Python, Gradio, faster-whisper (ASR), Coqui TTS, Kokoro TTS, Groq, Ollama, OpenAI, ChromaDB, Next.js, VRoid Studio

AI-Powered Portfolio (HiteshBot) | ([Github](#) | [Live demo](#))

- Built an interactive AI-powered portfolio featuring *HiteshBot*, a custom Retrieval-Augmented Generation (RAG) assistant trained on my resume, projects, and research to answer professional queries in real time.
- Designed a FastAPI backend with LlamaIndex + Gemini Pro for conversational AI, embeddings, and context-grounded responses, ensuring 100% factual grounding with zero hallucinations.
- Developed a Next.js frontend with real-time streaming responses, improving user engagement and interactivity.

Tech Stack: Python, FastAPI, LlamaIndex, Gemini Pro, RAG, Next.js, Vercel, Render

Certifications

AI & Machine Learning

- Salesforce Certified AI Specialist – Salesforce
- Salesforce Certified AI Associate – Salesforce
- AI-900: Microsoft Azure AI Fundamentals – Microsoft
- Predictive Analytics Using IBM SPSS Modeler – IBM
- Advanced Credit Program: AI Models – Chandigarh University
- Generative AI Fundamentals Accreditation – Databricks
- Oracle Cloud Infrastructure 2024 Generative AI

Certified Professional – Oracle

Data & Analytics

- Data Analyst Associate – DataCamp
- Oracle Cloud Data Management Foundation Associate – Oracle

Developer & Tools

- GitHub Foundations – GitHub
- Postman API Fundamentals Student Expert – Postman

Cloud & Networking

- Multicloud Network Associate – Aviatrix

Volunteering

United Nations Development Programme (UNDP Kenya)

Volunteer – Science and Technology | **Nov 2024 – Dec 2024 (2 months)** | [Certificate](#)

- Promoted global awareness of UNDP's AI initiatives in collaboration with key partners including MoICT Kenya, Microsoft, and KSG Kenya
- Contributed to the successful launch of the Africa Centre of Competence for Digital & AI Skilling, empowering public servants with essential skills to accelerate SDG progress, inclusive governance, and innovation across Africa

publication

- Awareness Lead (Jun – Aug 2024): Coordinated campaigns with 20+ international volunteers to promote SME empowerment across Africa
- Awareness Volunteer (Jul – Aug 2024): Supported outreach initiatives and stakeholder engagement to amplify the impact of AAE programs

Ministry of Social Development and Human Security of Thailand (MSDHS)

Accelerator | **Nov 2023 (1 month)** | [Certificate](#)

African Association of Entrepreneurs (AAE)

Volunteer | **Feb 2024 – Aug 2024 (7 months)** | [Certificate](#)

- Publication Lead (Feb – May 2024): Led a team of 12 writers in creating reports on Africa's entrepreneurship landscape for the annual AAE

- Promoted volunteerism in support of the UN Sustainable Development Goals (SDGs) during International Volunteer Day celebrations
- Contributed to the promotion and official inauguration of the ministry's website

Research Work

Train Waitlisted Ticket Confirmation Prediction Using Machine Learning

Published in ICACCTech 2024 | **Nov 17, 2024** | [Read here](#)

- Developed a machine learning model to predict the confirmation probability of waitlisted train tickets.
- Analyzed historical Indian Railways data to support better travel planning decisions.

Weather-Integrated Traffic Routing with Dynamic Speed Prediction

Accepted at ICRAAI 2025 | **Feb 21–22, 2025** | [Published soon](#)

- Integrated real-time weather data into traffic routing algorithms for smart city applications.
- Designed AI models for speed prediction and path optimization under varying environmental conditions.
